

**16 tables, 8 guests per table = seating for 128 guests**

This is a sample seating layout which uses 6 ft round banquet tables set for 8 adults at each table. A comfort space of 2 ft behind each chair has been preserved. The closest distance between 2 chairs of neighboring tables is 4 ft minimum in this drawing. Although we have put in great effort to be precise, we make no guarantees drawing is to scale. Use this drawing as a guide only for planning your event.
